

Chemistry 10: Chemistry for the Liberal Arts Internet Spring 2010

PREREQUISITE: NONE

NUMBER OF UNITS: 3 TOTAL HOURS OF LECTURE: 54

COURSE INSTRUCTOR: Cliff Gottlieb, Phone: 242-2323. e-mail cgottlieb@shastacollege.edu
web page <http://www.cliffschemistry.com>

Office Hours: M W F 9 – 10 AM; W 12 – 1PM; M 1 – 2 PM and by appointment to meet your needs in 1412 or the Science Learning Center, 1626. **If you are ever on campus, please come and visit.**

CATALOGUE COURSE DESCRIPTION:

A non-mathematical introduction to the major concepts of chemistry with attention to their relevance to practical and societal problems. This course is intended for non-science majors who wish to gain an appreciation for the application of chemistry to everyday living. The course includes such topics as nuclear energy and energy alternatives; health issues of drugs; food additives, nutrition, hormones; chemicals for household use, chemicals in the environment, and synthetics. This course may include field trips. This course will meet the general education requirement for a laboratory science if it is taken with CHEM 11. Chem 11 can be taken while taking Chem 10.

The online nature of this course offers students the flexibility in study times to meet individual needs. However, a successful student in an online situation must be motivated, organized, and a self-starter. If you do not have these characteristics as a student, save yourself grief and do not enroll in this course!!! Plan to spend at least 9 hours per week on this course. I will do everything I can to help you succeed in this course!!

REQUIRED TEXTS: (The text as well as many other materials and free tutoring are available in the Science Learning Center, room 1626.)

The Extraordinary Chemistry of Ordinary Things, 4th ed. by Carl Snyder ISBN 0-471-41575-8

I have provided numerous resources on my web sites. On the Shasta College Online course management program are lectures notes; practice worksheets with answers, and links to other websites will assist you in learning the subject matter of this class.

COURSE OVERVIEW

This course will look at some of the fundamental ideas and principles of scientific thinking and chemistry. I will place an emphasis on practical applications of chemistry to everyday life. This is a college/university level course that is transferable to four-year institutions. It is not a high school course. Students who are non-science majors or who are just interested in learning about chemistry in our lives should enroll in this course. If you have any concerns about whether this course is appropriate for you, please contact me immediately.

INTERNET DELIVERY ISSUES:

The entire course is on the internet. Unless unusual situations occur, there is no face-to-face component to the course.

This version of this course will be delivered over the internet using a program called the Shasta College Online program. This delivery system allows students the freedom to set their own schedule for completing the coursework. Most documents are in Adobe Acrobat PDF format. You should download the free Acrobat Reader immediately and install it on your computer. Here is the hyperlink, [Get Acrobat Reader](#). **You must be comfortable with working on computers and using the internet. If you are not, do not enroll in this course. Do not expect significant technical computer assistance from Shasta College or me.** You also must expect to spend the same amount of time on this course to what you would have spent on the face-to-face version of this course. **You should log onto this course everyday, check the course calendar, and make sure all of your work is up to date.** You should expect to spend at least nine hours per week on this course. Furthermore you must have sufficient self-discipline to set and adhere to your own and to the course's timelines. The internet version of this course is equal to or more rigorous than the face-to-face version. **DO NOT FALL BEHIND!!**

Learning styles: If your main learning style is audio/listening, an internet course is probably not for you unless you read the notes and text and record that on your mp3 player. Go to <http://www.vark-learn.com> and take a short learning style questionnaire to find your primary learning style(s).

Course schedule, timelines, and deadlines can be viewed in this syllabus and on the course calendar. I will try to accommodate out of the ordinary circumstances. However, if you cannot meet these conditions and timelines then you should not enroll in this internet course!

METHODS OF EVALUATION/GRADING SCALE:

Each of you has the innate ability to earn an "A". I hope that each of you will **work to achieve** an "A"!!

1. Four exams are 100 points each. There is no cumulative final
2. Quizzes will count 10 points each. These are worth 100 final grade points. There are 12 of them. So it is possible to earn up to 120 points out of 100 points possible This is like having the opportunity to earn 20 "extra credit" points.
3. Classroom discussions will count for 100 points. There will be 7 discussion topics on which you must post your thoughts on the class discussion board. Each of these is worth 10 points. You also must reply to at least two of your classmates' discussion thoughts. Each reply is worth 3 points. Total points possible are 112 points out of 100 points. Again you have the opportunity to earn up to 12 "extra credit" points.
4. There are three optional extra credit quizzes that involve topics that use some more involved algebra math skills. These topics are optional. You can earn up to 15 points for each of these quizzes. Any points earned on these quizzes on optional topics will be added to your total course points as extra credit. They cannot hurt your grade.

Course grades are based on the points that you earn. There are 600 points in the course with the opportunity to earn up to 677. Course Grades: A = 540 or more points; B = 480 – 539 points; C = 420 – 479 points; D = 360 – 419 points; F = 359 or fewer points. THESE POINT VALUES FOR THESE GRADES ARE IN STONE AND WILL NOT BE DEVIATED EVEN BY ONE POINT!

There is NO OTHER CREDIT other than outlined above. No make-up or LATE exams, quizzes, or homework are allowed unless you have immediate family or personal health or legal emergencies. Contact me by the Angel online program's e-mail or office phone at 530-242-2323 as soon as possible, typically the same day, to notify me of your emergency. Do not call me at home!! Be prepared to FAX me documentation to verify your emergency. If you have health, legal, or sports non-emergencies, you may be able to make arrangements to take an exam, quiz or submit homework early. You must contact me at least one week before the quiz/exam to make arrangements. I do not drop exams.

If you work within my parameters, I will do everything I can to accommodate your needs. I do not drop exams, nor offer other extra credit. Keep track of your own total points and grade using the Shasta online program.. During the week before the last day to drop, I will review your class performance and grades. Otherwise do not ask me to figure out your grade. I will discuss with you at anytime, your progress in the class. If you have any corrections or grade questions about any exam, quiz, or other graded assignment, you must notify me within one calendar week after the assignment is returned to the class. No adjustments in grades will be made after this time. I reserve the right to add new assignments. I also reserve the right to create grading policies to cope with atypical situations.

THE DETAILS REGARDING EVALUATION: All work is to be done by yourself and submitted individually

EXAMS will be 50 multiple choice or fill in the blank questions with each question worth 2 points. I will post a study guide that will have test type questions on it. The questions on each exam will come from the study guide. The study guide will not have the answers. You must find the answers in the text or in my notes. On exam days, I will make each exam available by 12 AM Pacific time and it must be completed typically by the next day by 11:55 PM, Pacific Time Zone (USA). You will have at least a two-day window in which to take the exam. The exam will be timed using Shasta College Online . If you go over the time limit, 1 point per minute over will be deducted from you grade. No late exams permitted except for health or legal situations or emergencies. If technical problems occur such as computer or internet connection failure, you must call me immediately at 530-242-2323. Do not call me at home!!! I reserve the right to deliver any exam to any student in a paper-pencil format in a proctored environment.

Exam Dates: Exam 1 February 19-22; Exam 2 March 14-16; Exam 3 - April 16-18; Exam 4 May 23-25

QUIZZES will be multiple choice, fill in the blank, or submitting an assignment consisting of a list of at home observations, and one discussion that will involve and internet search. Most of the quizzes will cover material directly from the worksheets which I provide online. As with exams, quizzes will be posted by 12 AM Pacific time and it must be completed by 11:55 PM of the same day on the Pacific Time Zone (USA). No late or make-up quizzes permitted with no exceptions other than health or legal situations or emergencies. If technical problems occur, call me immediately. You will be required to take a syllabus quiz to make sure that you the "real" quizzes cause you no technical problems and to demonstrate that you have read this document. The syllabus quiz will not count toward your grade but must be passed with 100% or you will not be allowed to continue in the class. For the syllabus quiz, you will get 4 tries. For all other quizzes you will get only 1 attempt.

CLASSROOM DISCUSSIONS will be posted on the class calendar and will become available on the Shasta College Online discussion board about 1 week before the discussions are due. They will involve your thoughts on various more open-ended questions and topics. For topics and due dates check the schedule in this syllabus or the class calendar on Shasta College Online. For each discussion topic you are required to write one or more paragraphs to explain your views. I will evaluate them based on the following rubric: High quality (10 points) – discussion is organized, well thought through, and presented cogently. It includes facts to support ideas and opinions. The writing is grammatically correct. Medium quality (7 points) – discussion is insightful but is missing one item of a high quality discussion. Needs Improvement (5 points or less) – missing two or more of the characteristics of a high quality discussion. Your first discussion will not be evaluated but is required to make sure that you can post discussions on the discussion board. The topic will be to tell the class about you. Please post your discussions on the topic which you addressing. Check your grades on the Shasta College Online program to see your grades on the discussions. The grades will typically be posted within a week of the due date of the replies.

Discussion replies will also be posted on the discussion board and must meet the deadline posted on the calendar. You will need to make a brief response of at least one or two sentences to two other posted discussions. They will be graded as satisfactory (3 points) or unsatisfactory (0 points). Satisfactory replies will show that you have read the original discussion and will comment directly on items in the original discussion. Please e-mail me if you have any concerns about the way your discussions have been evaluated.

There will also be two other discussion boards available to you throughout the class. One is for general discussions between you and your classmates. I will generally not look at these discussions. Another discussion board will be dedicated to questions that you might have that you would like me to address. I will check this board regularly.

Length of discussion is not the most important factor in determining quality. But a high quality discussion must be at least a 4-sentence paragraph. **ETIQUETTE IS IMPORTANT. RUDENESS, BIGOTRY, AND PERSONAL ATTACKS WILL NOT BE TOLERATED.** Any such displays will cause you to be dropped from the class at my discretion. Disagreement on issues is fine and I encourage it, but disagree with RESPECT FOR OTHERS' OPINIONS!. Furthermore to make on-line discussions more “human” you should use emoticons to show your feelings. Check out to find out how to use [emoticons](#). ☺

OPTIONAL QUIZZES will follow the same procedure as regular quizzes. There are 3 of them and will count as extra credit. They are algebra based and you will need a scientific calculator to take them. More information is on the Shasta College Online calendar.

CHEATING is the unauthorized giving or getting of answers to quizzes or exams or having someone else take exams, take quizzes or write discussions for you. It is not fair to you, your classmates, or to me. In life all you really own is your personal integrity. Please for your own peace of mind, do not throw away your integrity for a grade in a course. That would be pathetic. DON'T DO IT!! . If you cheat, you will receive a 0 for the work involved and a penalty of a 150-point deduction from your final course grade. All work is to be completed by you individually. No copying or group work unless explicitly stated. **BY ENROLLING IN THIS CLASS, YOU AGREE NOT TO CHEAT BY OATH ON YOUR RELIGIOUS, SPIRITUAL, OR PHILOSOPHICAL BELIEFS !**

ERRORS ,OMISSIONS, or CORRECTIONS on all graded exams, quizzes, and discussions must be submitted to me via e-mail NO LATER THAN ONE WEEK AFTER THE DUE DATE. You can see the correct answers to any exam or quiz by clicking on any exam/quiz that has been graded. Exams and quizzes will be graded by the day after the availability period ends.

MY RESPONSIBILITES

I will provide you with interesting information to you and be available to answer your questions. I will help you hone your understanding of how the world works from a chemical perspective. I will be available for consultation on the phone during office hours, by e-mail from Monday to Friday, and by chat room when available. I am online throughout the day on Mondays though Fridays and check the class regularly. On these days you will receive a reply usually within hours and definitely within 24 hours. After Friday at 2PM through Sunday night, I am online at various times, so I may not respond to communications until Sunday night or Monday morning. Bottom line: I will help you to achieve the best grade that you chose to achieve.

YOUR ROLE

You must read the book, read the notes, complete assignments, and participate in the class discussions. Log onto the class Shasta College Online EVERYDAY and check the calendar! Click on calendar dates for more information. If you are a slacker, DO NOT ENROLL. You need to be self-motivated and disciplined to work on your own to complete assignments. You need to work with your classmates on-line to facilitate your learning by using the discussion board and the chat rooms in Shasta College Online. Studies show that students who study in groups typically perform better than students who do not work in groups. If you do not log onto the Shasta College Online page for 5 consecutive school days without notifying me, I reserve the right to make the course non-accessible to you. I DO NOT FORMALLY DROP STUDENTS FROM THE CLASS. IN ALL CASES YOU MUST DROP THE CLASS YOURSELF THROUGH THE REGISTRAR'S OFFICE!!

USING THE SHASTA COLLEGE ONLINE PROGRAM: IMPORTANT STUFF PAY CLOSE ATTENTION!!!

Learn how to use the Shasta College Online program. Read the student guide under resources. Click on everything to see what it does, you cannot hurt the program.

USE FIREFOX, do not use Internet Explorer or Safari; these two just don't work correctly all the time. Perform browser check!

Brief overview of on the Chem 10 course menu on the top of the page on the Shasta College Online program.

Calendar: This will show you due dates for everything in the course. Click on the date to find out more information for that day.

Lessons: This contains the material for the course and upon clicking on it you will find

Chem 10 Cliff's notes: Here are my course notes in PDF format. You will need to download Adobe Acrobat reader. It is free. There are links on my various homepages. I do not provide notes for all the chapters. The later chapters are very complete and well written. I have provided notes for many of the more "nitty-gritty" chemistry in the early chapters.

Chem 10 worksheets and answer sheets: I have provided practice worksheets and answer sheets to help you practice and learn some of the nuts and bolts of chemistry. The quiz questions typically come straight off these sheets. You do not have to submit them; they are just for practice.

Chem 10 exam study guides: These contain about 200 questions for each exam. You have to find the answers in my notes or in the text. Each exam will have 50 questions directly off the study guide.

Chem 10 quizzes: Here is where you will find the quizzes. Quiz 1 through 8 are fill in or multiple choice that come directly from the worksheets. Click on these when it is available to take. Once you open a quiz, the time clock starts ticking and it will not stop. You must finish it at that time. For each question you must save your answer and then when finished you must hit submit to submit the quiz. Included in this section are three assignment type quizzes, quizzes 9 – 11. Click on these when available and follow the directions EXACTLY. Finally quiz 12 is of a discussion type. You have to make the initial post but need not make any replies. I do this as a discussion so you can see what your classmates found which I encourage you to do but you are not required.

Chem 10 exams: This is where you find the class exams. Click on the exam when it is available to take. Once you open an exam, the time clock starts ticking and it will not stop. You must finish it at that time. For each question you must save your answer and then when finished you must hit submit to submit the exam.

Chem 10 discussions: Click on this and you will see the topics introductions, ask Cliff questions here, and communicate with your classmates which are the ungraded discussions. The graded discussion topics will appear when it is time for you discuss these issues. They cannot be completed early. Check the calendar for the dates. Everyone in the class can see everything posted on the discussion board. **Please be sure to post your discussions in the correct topic!!!!**

Chem 10 discussion articles: Articles for the assigned discussions are here

Resources: Here is where you can find help on using the online program.

Communicate:

E-mail: Here is where you can use the course e-mail program. Please use this program's e-mail for all class communications. Some of you have indicated problems. Norton security may cause problems. Turn it off when using this program and see if it works. The MOST likely problem is the filter setting. Click communicate and click on view inbox. On the upper right side, you see the word Filter with a small horizontal window below it. Make sure that this course shows in the window. Then click compose message, click to, in a pop up window you will see the choices of recipients. Click to highlight one or more, then click on the To> button and you will see those highlighted show up in the box. Click save and you will see the recipients in the To box. Now just type your message and click send.

Discussions: You can also access the discussions here.

Live Chat: This is a live chat room for students who wish to form online study groups.

Reports: Here is where you can see your course participation and grades. To find your grades click on the reports tab, then select grades and click on run. You will also see any comments that I have made.

CLASS COMMUNICATIONS

USE THE Shasta College Online e-mail. You can also contact me by leaving a message at my office phone 530-242-2323. I will communicate with you by individual Shasta College Online e-mail or class discussion board. Classmates will communicate with each other by Shasta College Online e-mail or class discussion board. In case of emergency you can call me at my office, use the Shasta College Online e-mail, or use my general e-mail address cgottlieb@shastacollege.edu Please put **internet 10** as your subject if you use my general e-mail in an emergency. Do not use my general e-mail for non-emergency situations!!!

OTHER RESOURCES

Shasta College provides a wonderful resource to all science students, which is the Science Learning Center. It has tutors and other resources available if you are on campus. It is trying to develop on-line tutoring capabilities. Check it out in room 1626 or online.

QUESTIONS If you have questions, please e-mail me. I am here to help you.

COURSE SCHEDULE, brief version.

Week starting	Chapters	Week starting	Chapters
1/20	1 & 2	3/22	12 & 13
1/25	2 & 3	4/5	14 & 15
2/2	3 & 4	4/12	15 & 16
2/9	5 & 9	4/19	16 & 17
2/16	Exam I	4/26	Exam III & 18
2/23	6 & 7	5/3	19
3/1	21 & 8	5/10	20 & 22
3/8	10 & 11	5/17	22 & 23
3/15	Exam II & 12	5/23	Exam IV

This schedule may be changed at the instructor's discretion.

Tentative Daily Schedule Chem 10 Internet S-10

Please note that the dates are date/month/year. There is this schedule in calendar format on the Shasta College Online program

19/1/2010, Click on dates for more info,
20/1/2010, Practice Discussion Post Introduce yourself,
20/1/2010, Start Chapt 1 text & notes,
20/1/2010, Take practice syllabus quiz Click on lessons and then quizzes and exams,
21/1/2010, Start Element worksheet,
21/1/2010, Start discussion 1 Should dhmo be banned? <http://www.dhmo.org/>,
22/1/2010, Start chapt 2 text & notes,
23/1/2010, Practice Disc-Introduction due,
24/1/2010, Syllabus quiz due,
25/1/2010, Quiz 1 on first 30 elements. I will give you 5 names and you give symbol and then I give you 5 symbols and you give me names. Spelling counts,
26/1/2010, Disc 1 due,
27/1/2010, Start Chapt 3 text & notes,
28/1/2010, Disc 1 replies due,
28/1/2010, Quiz 2 due. Quiz 2 covers the atomic and electron structure worksheet,
29/1/2010, Quiz 3 due. Quiz 3 covers the isotope worksheet,
1/2/2010, Quiz 4 due. Quiz 4 covers the periodic table worksheet,
4/2/2010, Quiz 5 due. Quiz 5 covers the ion worksheet,
5/2/2010, Start Chapt 4 & 5 text & notes,
8/2/2010, Quiz 6 due. Quiz 6 covers the Dot Structure worksheet,
10/2/2010, Start Chapt 9. Read chapter 9 the balancing equations section page 204 and sections 5 & 7 & 9 thru 11. The other sections are optional. You can take 2 extra credit quizzes on this optional material,
11/2/2010, Quiz 7 due. Covers the nuclear decay worksheet.,
12/2/2010, Lincoln holiday,
15/2/2010, President's holiday,
16/2/2010, Quiz 8 due. Quiz 8 covers the balancing equations worksheet,

19/2/2010,Exam 1 available and covers chapters 1 thru 5 & 9 with 50 questions from the study guide You may use the class periodic table and ion chart only,
22/2/2010,Exam 1 due. Exam 1 must be submitted by 11:55 PM,
21/2/2010,Start Chapter 6,
21/2/2010,Optional quiz 1 & 2 available. Due by 3-23. Optional quiz 1 covers moles and simple mole to mole stoichiometry. Optional quiz 2 covers stoichiometry. You are allowed a periodic table and scientific calculator only,
23/2/2010,Start on quiz 9 and 10. These are assignments in the quiz area and are due on 3-4. Don't wait, you have to read labels off consumer products,
26/2/2010,Start Chapt 7,
1/3/2010,Start Chapt 21,
3/3/2010,Start Chapt 8,
4/3/2010,Quizzes 9 & 10 due,
5/3/2010,Start on Quiz 11(another assignment) due 3-12. This involves reading more labels,
9/3/2010,Start Chapt 10,
11/3/2010,Start Chapt 11,
12/3/2010,Quiz 11 due,
14/3/2010,Exam 2 available 12 AM. Covers chapters 6 thru 8 & 10 & 21,
16/3/2010,Exam 2 due 11:55PM,
17/3/2010,Start Chapt 12,
19/3/2010,Start Chapt 13,
19/3/2010,Start Discussion 2,
22/3/2010,Start Chapt 14,
23/3/2010,Optional quiz 1 & 2 due,
24/3/2010,Disc post 2 due,
25/3/2010,Optional quiz 3 available due 4-19.This quiz covers calculating pH from molarity and molarity from pH and the voltage of a redox reaction. You are allowed your periodic table and calculator only,
26/3/2010,Disc post 2 replies due,
26/3/2010,Start Chapt 15,
27/3/2010,Happy spring break!,
4/4/2010,Happy Easter.Break ends,
5/4/2010,Start disc 3,
8/4/2010,Start Chapt 16,
10/4/2010,Disc. post 3 due,
12/4/2010,Disc 3 Two replies due,
12/4/2010,Start chapter 17,
16/4/2010,Exam 3 available. Covers chapters 12-17,
18/4/2010,Exam 3 due,
19/4/2010,Optional quiz 3 due,
20/4/2010,Start Disc 4,
20/4/2010,Start Chapt 18,
21/4/2010,Disc 5 directions.Check this now.Go to the discussion articles section. Click on the disc 5 directions for seek find and share,
26/4/2010,Disc. post 4 due,
27/4/2010,Start Chapt 19,
29/4/2010,Disc 4 Two replies due,
29/4/2010,Start Disc 5,
4/5/2010,Start chapt 20,
4/5/2010,Disc 5 due,
6/5/2010,Disc 5 Two replies due. Start Chapt 22,
7/5/2010,Start quiz 12 which is a discussion in the quiz section.Due 5-12.No replies required,
10/5/2010,Start Disc. 6,
12/5/2010,Quiz 12 due,
13/5/2010,Disc. post 6 due. Start Chapt 23,
17/5/2010,Start Disc 7,
16/5/2010,Disc 6 Two replies due,
19/5/2010,Disc. post 7 due,
21/5/2010,Disc. Two 7 replies due,
23/5/2010,Exam 4 available,
25/5/2010,Exam 4 due,
26/5/2010,You're done) Happy Summer!!,

SCIENCE LEARNING CENTER

Room 1626

The Science Learning Center offers a comfortable study environment and a variety of resources to assist students in any of the Science classes. There are computer programs and filmstrips that cover specific topics, old tests to look at, microscopes and slides to use and tutors to offer help.

Tutors can help you to initiate good study habits and procedures to maximize your study time. They can also help to clarify any confusing concepts. The tutoring is free and is done by students who have already successfully completed the course, often with the same instructor. When there is interest, we run study groups that are led by tutors.

OTHER RESOURCES AVAILABLE

XEROX MACHINE A copy machine is available in the computer area of the Learning Center for .10 per copy.

COFFEE CLUB Coffee is always brewing for Coffee Club Members. To join, there is a 4.50 per month charge or pay .50 by the cup. Occasionally, there is also Hot Chocolate for .15 per packet. Such a deal!

OFFICE SUPPLIES For your use, we have a paper cutter, stapler, scissors, and tape. Colored pencils are also available.

STUDYING IN THE SLC There are three different study environments available

GENERAL AREA This is a quiet area with plenty of room to spread out.

STUDY GROUP AREA We have a special area, separated from the rest of the Center by a partition, where groups like to study together.

SILENT AREA For those students who don't like distraction but want to make use of the Learning Center, this is a perfect spot. It is not quiet, but SILENT.

The SCIENCE LEARNING CENTER is a friendly, helpful, encouraging environment which can become your home away from home.

ADDING A CLASS

Students may add a full-term class through the fourth week of the term.* After the first two class meetings, approval of the instructor is required to add the class, which includes both the signature of the instructor and the first date of attendance. **IT IS THE STUDENT'S RESPONSIBILITY** to pick up the form from the Admissions and Records Office and take it to the instructor for approval. The student must then return the form to the Admissions and Records Office or Extended Education Center for processing before the add is finalized.

DROPPING A CLASS WITHOUT RECORD

Students may drop a class, and have no notation appear on their transcripts, through the fourth week* or 30% of the term for classes less than a semester in length. **IT IS THE STUDENT'S RESPONSIBILITY TO DROP CLASS (ES)**. The necessary forms are available from Admissions and Records, Extended Education Centers, or by mail. If a student intends to drop a class and stops attending but fails to file the necessary forms, a failing letter grade may be assigned by the instructor.

WITHDRAWING FROM A CLASS WITH A "W" GRADE

Students may withdraw from a class after the official "drop" date and up through the fourteenth week or 75% of the term for classes less than a semester in length. The notation "W's" will appear on the student's transcript and will not be used in calculations of grade point average. Excessive "W" shall, however, be used as factors in probation and dismissal procedures. **IT IS THE STUDENT'S RESPONSIBILITY TO OBTAIN FORMS AND SUBMIT THE NECESSARY PAPERWORK TO WITHDRAW FROM A CLASS**. Forms are available from Admissions and Records, Extended Education Centers, or by mail. Students who have not dropped or withdrawn from a class before the end of the fourteenth week or 75% of the term will be assigned a course grade.

ATTENDANCE

Students are expected to attend all class meetings. A student who fails to attend the first meeting of a course without notifying the instructor may be dropped from the class. In addition, an instructor may drop a student during the first 30% of the term for excessive absences. Nevertheless, **IT IS ALWAYS THE STUDENT'S RESPONSIBILITY TO OFFICIALLY DROP OR WITHDRAW** from the class. Students who fail to file the necessary forms, even though they stop attending class
